

**THE MOST
FEATURE-PACKED
ADDRESS SYSTEM
EVER SEEN.**

YOU choose which features will be displayed on your **VayaPin** and which should be password protected.

Your own VayaPin address
 -Select your Country and choose a random Pin (**ABZ3YA**) or customize your own pin (**THEKING**) and get the same address for the rest of your life.
 -No need to inform everyone when you're moving, simply move the Pin inside "My VayaPin" to your new location.

Contact details for you or your business
 Your name or business name
 Telephone number
 E-mail
 Website
 Official address – If you have one
 Opening hours

Images and/or logo of your house or business
 Makes it easier for people to find you and shorten delivery time
 Add relevant info, such as a "Covid Sensitive" label to your image to ensure social distancing when needed.

Textbox in multiple languages
 Add info to your address, such as "Doorbell not working", "be aware of the dog", "Please leave parcels in the garage", or a concept description of your business.

"Add to contact" option
 Add your friends' VAYAPIN addresses to their contact details in their phonebook and always stay automatically updated on their current addresses.

Social Media
 Add social media accounts or links to your address Such as Instagram, Twitter, Facebook, LinkedIn, Trip Advisor etc.
 Perfect for businesses to present an all-in-one solution to their clients which is available from the moment they punch in the **VayaPin** address.

Attach files to your VayaPin
 Easily add files to your address, such as "House Rules" (for rentals), "Menu card" (for restaurant, food trucks, catering), Pricelists, User Manuals, Certificates, Documents, etc.

Password protected fields
 Here you can easily tick off the features you wish to share only with specific people and also add an extra password for more sensitive information like alarm codes, WIFI code, key placement, etc.

UPCOMING FEATURES

One address to rule them all
 Not only can you add your official address to your Vayapin, but once created, you can automatically see your address from others providers such as Google+, Makani, What3words, etc.

Instant access to Emergency Pin
 THIS FEATURE CAN SAVE LIVES.
 When an emergency occurs on any location, they can quickly and easily get a temporary short and accurate pin created from their actual position, "SOS205" that they can share with the emergency dispatch team without the struggle of communication a location.

Need of medical assistance
 Through our collaboration with www.mypocketdoctor.com you can always get instant access to an online videocall with a doctor, in your preferred language, who can also prescribe you medicine. A valuable option when renting out your house to tourist.

Live tracking
 Enable/Disable live tracking as you please and share your real time location.

KYC - Know Your Customer
 Get real time verification from your clients confirming their identity and location.

A "Sub address" in your local language
 Not only will you get an international recognizable address, but also the option of a sub-address with any local language characters, to simplify regional communication.
